برومبتات الذكاء الاصطناعي

THE LAST REFLECTION

ملحق جاهز للنسخ واللصق من «دفتر إنتاج الانعكاس الأخير». كل برومبت مخصص للقطة واحدة. الرقم والتوقيت مطابقان للكتاب الرئيسي (83.3 ثانية، 22 لقطة).

طريقة الاستخدام

1. افتح صفحة اللقطة في الكتاب الرئيسي أولًا لتعرف أي أخذ تحتاج وكيف تُركَّب الطبقات.
2. ركّب الطبقات في Remotion أو محررك قبل أي ذكاء اصطناعي، ثم ارفع الملف المركَّب (الإدخال المذكور) إلى الأداة.
3. انسخ البرومبت كما هو (بالإنجليزية). لا تترجمه ولا تختصره، وأضف الكتلة العامة أدناه إن لم تكن الأداة تدعم تعليمات طويلة.
4. بعد كل نتيجة نفّذ فحص الهوية والحركة السباعي (القسم 6.3 في الكتاب) قبل اعتماد الملف.
5. إن فشلت المعالجة: خفّض الشدة إلى 40%–30%، أو عالج إطارًا مفتاحيًا فقط، أو استعمل الإضاءة الحقيقية والتدريج في Remotion.

تنبيه

لا نعرف بالضبط ما تدعمه Relight Studio لديك (فيديو أم صور فقط). اختبر قدراتها بالاختبار A في القسم 7.3 قبل التصوير الكامل. هذه البرومبتات تصف النتيجة المطلوبة ولا تنفّذها بنفسها.

الكتل العامة (تُلحق عند الحاجة)

```
[IDENTITY LOCK]
Do not change the person: same face, same bone structure, same eye shape, same hair, same skin tone and texture, same clothes, same body proportions, same motion and timing as the source footage. Do not regenerate, replace, age, beautify or re-pose the person.

[STYLE LOCK]
Realistic smartphone night footage, cold dim practical lighting, low-contrast, soft highlights, native sensor noise, slight softness. No cinematic bloom, no lens flare, no HDR halo, no fog, no film-look filter.

[NEGATIVE]
no face morphing, no extra people or objects, no extra fingers, no warped mirror or walls, no text, no watermark, no flicker between frames, no colour banding, no smoothing, no re-timing.
```

برومبتات اللقطات

S01 التأخر الأول — خليل

Relight Studio

الإدخال: TLR_S01_K_E_COMP_v01.mov **الإخراج:** TLR_S01_K_E_AI_v01.mp4 **المدة:** 3.5 ث

```
[RELIGHT STUDIO — LOOK PASS L01]
INPUT: S01 composite (9:16, 4K/30 downscaled to 1080p) — a man in three-quarter profile on the left, a wall mirror on the right showing his reflection waving half a second late.
TASK: Relight and re-atmosphere the EXISTING footage. Do NOT regenerate, redraw or re-pose the person.
SCENE: A man waves once beside a wall mirror in an ordinary bedroom; the reflection lags behind.
PRESERVE EXACTLY: the actor's identity, face, hair, clothing and body proportions; the exact timing of his single wave and the reflection's deliberate 0.5-second lag; the mirror frame, furniture and camera framing; natural micro-shake.
CHANGE ONLY: lighting and atmosphere. Replace ordinary home lighting with one dim, cold practical source (from camera-left, low, like light spilling from a phone screen, about 6000K pushed toward teal-grey); gently deepen the shadows; soft light falloff toward the corners; skin stays natural and slightly desaturated.
MIRROR: The reflection must look physically consistent: same light direction as the real man, about 0.3 stop darker, never brighter.
FOCUS: keep the raised left hand sharp; do not let the relight smear the time offset between man and reflection.
LOOK: realistic phone footage shot at night, native sensor noise, soft highlights, no cinematic bloom, no lens flare, no HDR halo.
NEGATIVE: no face morphing, no new people or objects, no extra fingers, no warped mirror, no text or watermark, no flicker between frames, no beauty smoothing, no colour banding.
OUTPUT: same duration, 1080x1920, 30 fps, no re-timing.
```

S02 العينان — خليل

Relight Studio

الإدخال: TLR_S02_K_H_t1_RAW_v01.mp4 **الإخراج:** TLR_S02_K_H_AI_v01.mp4 **المدة:** 1.5 ث

```
[RELIGHT STUDIO — LOOK PASS L02]
INPUT: S02 raw clip (handheld mirror close-up, 1080x1920, 6 s) of a man's eyes and brows reflected in a mirror.
TASK: Relight and re-atmosphere the EXISTING footage. Do NOT regenerate, redraw or re-pose the person.
SCENE: Extreme close-up of both eyes and brows in a mirror; mirror frame edges visible at left and right.
PRESERVE EXACTLY: the actor's identity, face, hair, clothing and body proportions; iris colour, eyebrow shape, eyelid shape, the slow single blink, catchlights from the real room; the mirror frame, furniture and camera framing; natural micro-shake.
CHANGE ONLY: lighting and atmosphere. Replace ordinary home lighting with one dim, cold practical source (one soft cold light slightly above and left, low intensity, deep shadow under the brows); gently deepen the shadows; soft light falloff toward the corners; skin stays natural and slightly desaturated.
MIRROR: Keep the glass edges untouched; no double reflections.
Never alter the iris, pupil size, or the shape of the eyes. If unsure, change only exposure and colour temperature.
LOOK: realistic phone footage shot at night, native sensor noise, soft highlights, no cinematic bloom, no lens flare, no HDR halo.
NEGATIVE: no face morphing, no new people or objects, no extra fingers, no warped mirror, no text or watermark, no flicker between frames, no beauty smoothing, no colour banding.
OUTPUT: same duration, 1080x1920, 30 fps, no re-timing.
```

S03 الانعكاس يكمل الحركة — خليل

Relight Studio

الإدخال: TLR_S03_K_E_COMP_v01.mov **الإخراج:** TLR_S03_K_E_AI_v01.mp4 **المدة:** 3.5 ث

```
[RELIGHT STUDIO — LOOK PASS L03]
INPUT: S03 composite (medium shot): real man at left raising a hand to chest and stopping; reflection in the mirror at right continuing to his hair.
TASK: Relight and re-atmosphere the EXISTING footage. Do NOT regenerate, redraw or re-pose the person.
SCENE: Medium shot, a man in profile beside a mirror; his reflection's arm keeps rising after his own stops.
PRESERVE EXACTLY: the actor's identity, face, hair, clothing and body proportions; where the real hand stops (mid-chest) and where the reflected hand ends (touching hair); the divergence must remain readable; the mirror frame, furniture and camera framing; natural micro-shake.
CHANGE ONLY: lighting and atmosphere. Replace ordinary home lighting with one dim, cold practical source (single cold lamp from camera-left at head height, soft, low; faint cold rim on his hair); gently deepen the shadows; soft light falloff toward the corners; skin stays natural and slightly desaturated.
MIRROR: Same light on the reflection; reflected hand must stay clean and sharp, no motion smear.
Do not interpolate frames between the real hand and the reflected hand.
LOOK: realistic phone footage shot at night, native sensor noise, soft highlights, no cinematic bloom, no lens flare, no HDR halo.
NEGATIVE: no face morphing, no new people or objects, no extra fingers, no warped mirror, no text or watermark, no flicker between frames, no beauty smoothing, no colour banding.
OUTPUT: same duration, 1080x1920, 30 fps, no re-timing.
```

S04 أطراف الأصابع على الزجاج — خليل

محرر/Remotion + صوت (بلا ذكاء اصطناعي)

الإدخال: TLR_S04_K_H_t1_RAW_v01.mp4 **الإخراج:** TLR_S04_K_H_AI_v01.mp4 **المدة:** 1.5 ث

```
NO AI PROMPT FOR THIS SHOT.
EDIT SPEC (NLE / Remotion): trim to 1.5 s ending 0.3 s after contact; apply LOOK-N grade; add a single 'glass tick' SFX 12 frames BEFORE the real touch; add 0.5% handheld shake; do not retime the clip.
```

S05 الابتسامة — خليل

Relight Studio

الإدخال: TLR_S05_K_E_COMP_v01.mov **الإخراج:** TLR_S05_K_E_AI_v01.mp4 **المدة:** 4.0 ث

```
[RELIGHT STUDIO — LOOK PASS L05]
INPUT: S05 composite (medium): real man in profile with a neutral face at left; mirror at right with the reflection slowly smiling.
TASK: Relight and re-atmosphere the EXISTING footage. Do NOT regenerate, redraw or re-pose the person.
SCENE: A man in profile; in the mirror his reflection smiles slowly with lips closed while he does not.
PRESERVE EXACTLY: the actor's identity, face, hair, clothing and body proportions; both facial expressions exactly as shot: neutral real face, smiling reflected face; head tilt and eye direction; the mirror frame, furniture and camera framing; natural micro-shake.
CHANGE ONLY: lighting and atmosphere. Replace ordinary home lighting with one dim, cold practical source (dim cold side light from camera-left; slightly darker, cooler glass region than the room (about -0.4 stop)); gently deepen the shadows; soft light falloff toward the corners; skin stays natural and slightly desaturated.
MIRROR: Do not alter the shape of the smile, do not add teeth, do not change the eyes of the reflection.
Keep skin texture real; no smoothing, no eye enlargement.
LOOK: realistic phone footage shot at night, native sensor noise, soft highlights, no cinematic bloom, no lens flare, no HDR halo.
NEGATIVE: no face morphing, no new people or objects, no extra fingers, no warped mirror, no text or watermark, no flicker between frames, no beauty smoothing, no colour banding.
OUTPUT: same duration, 1080x1920, 30 fps, no re-timing.
```

S06 يازد: الابتسامة نفسها — يازد

Relight Studio

الإدخال: TLR_S06_Y_E_COMP_v01.mov **الإخراج:** TLR_S06_Y_E_AI_v01.mp4 **المدة:** 3.5 ث

```
[RELIGHT STUDIO — LOOK PASS L06]
INPUT: S06 composite (medium): real man in profile at right with a neutral face; mirror at left with the reflection smiling slowly.
TASK: Relight and re-atmosphere the EXISTING footage. Do NOT regenerate, redraw or re-pose the person.
SCENE: A different home, same mood: a man beside a wall mirror, reflection smiling while he does not.
PRESERVE EXACTLY: the actor's identity, face, hair, clothing and body proportions; both expressions as shot; head tilt; the mirror-left layout (this is the horizontal counterpart of S05); the mirror frame, furniture and camera framing; natural micro-shake.
CHANGE ONLY: lighting and atmosphere. Replace ordinary home lighting with one dim, cold practical source (dim cold side light from camera-right; match S05's exposure, colour temperature and contrast exactly); gently deepen the shadows; soft light falloff toward the corners; skin stays natural and slightly desaturated.
MIRROR: Same light direction and brightness on the reflection as the real man, about 0.4 stop darker.
MATCH TO REFERENCE: use the processed S05 frame as the colour and contrast reference.
LOOK: realistic phone footage shot at night, native sensor noise, soft highlights, no cinematic bloom, no lens flare, no HDR halo.
NEGATIVE: no face morphing, no new people or objects, no extra fingers, no warped mirror, no text or watermark, no flicker between frames, no beauty smoothing, no colour banding.
OUTPUT: same duration, 1080x1920, 30 fps, no re-timing.
```

S07 قبضة يازد — يازد

محرر/Remotion + صوت (بلا ذكاء اصطناعي)

الإدخال: TLR_S07_Y_H_t1_RAW_v01.mp4 **الإخراج:** TLR_S07_Y_H_AI_v01.mp4 **المدة:** 1.5 ث

```
NO AI PROMPT FOR THIS SHOT.
EDIT SPEC (NLE / Remotion): trim to 1.5 s ending at the peak of the grip; apply LOOK-N grade (cooler by -150K than S02); add subtle handheld shake 0.6%; keep native sensor grain; no retime.
```

S08 الانعكاس يستدير — يازد

Relight Studio

الإدخال: TLR_S08_Y_E_COMP_v01.mov **الإخراج:** TLR_S08_Y_E_AI_v01.mp4 **المدة:** 4.0 ث

```
[RELIGHT STUDIO — LOOK PASS L08]
INPUT: S08 composite (wide): real man in profile at right facing the mirror; the mirror at left shows his reflection with its BACK turned to the viewer.
TASK: Relight and re-atmosphere the EXISTING footage. Do NOT regenerate, redraw or re-pose the person.
SCENE: Wide shot of a bedroom wall mirror; the real man faces the glass while his reflection has turned away.
PRESERVE EXACTLY: the actor's identity, face, hair, clothing and body proportions; the reflection's back view and the timing of its turn; the real man's static posture; the mirror frame; the mirror frame, furniture and camera framing; natural micro-shake.
CHANGE ONLY: lighting and atmosphere. Replace ordinary home lighting with one dim, cold practical source (dim cold lamp from camera-right, low intensity; the glass area slightly cooler and darker than the room); gently deepen the shadows; soft light falloff toward the corners; skin stays natural and slightly desaturated.
MIRROR: The back of the reflection must remain clean: same clothing, same hair as the real man seen from behind.
Do not invent a different outfit or hairstyle for the reflection.
LOOK: realistic phone footage shot at night, native sensor noise, soft highlights, no cinematic bloom, no lens flare, no HDR halo.
NEGATIVE: no face morphing, no new people or objects, no extra fingers, no warped mirror, no text or watermark, no flicker between frames, no beauty smoothing, no colour banding.
OUTPUT: same duration, 1080x1920, 30 fps, no re-timing.
```

S09 خليل: استدارة الانعكاس — خليل

Relight Studio

الإدخال: TLR_S09_K_E_COMP_v01.mov **الإخراج:** TLR_S09_K_E_AI_v01.mp4 **المدة:** 4.0 ث

```
[RELIGHT STUDIO — LOOK PASS L09]
INPUT: S09 composite (wide): real man in profile at left; the mirror at right shows his reflection turned with its back to the viewer.
TASK: Relight and re-atmosphere the EXISTING footage. Do NOT regenerate, redraw or re-pose the person.
SCENE: Wide shot, the Khalil-side counterpart of S08: reflection has turned its back while the real man faces the glass.
PRESERVE EXACTLY: the actor's identity, face, hair, clothing and body proportions; the reflection's turn timing and back view; the real man's stillness; the mirror frame and wall; the mirror frame, furniture and camera framing; natural micro-shake.
CHANGE ONLY: lighting and atmosphere. Replace ordinary home lighting with one dim, cold practical source (dim cold lamp from camera-left; match the processed S08 frame for exposure and colour); gently deepen the shadows; soft light falloff toward the corners; skin stays natural and slightly desaturated.
MIRROR: Same clothing and hair on the reflection as on the real man (seen from behind).
MATCH TO REFERENCE: processed S08 frame.
LOOK: realistic phone footage shot at night, native sensor noise, soft highlights, no cinematic bloom, no lens flare, no HDR halo.
NEGATIVE: no face morphing, no new people or objects, no extra fingers, no warped mirror, no text or watermark, no flicker between frames, no beauty smoothing, no colour banding.
OUTPUT: same duration, 1080x1920, 30 fps, no re-timing.
```

S10 الممر: يعود — خليل

Relight Studio

الإدخال: TLR_S10_K_P_t1_RAW_v01.mp4 **الإخراج:** TLR_S10_K_P_AI_v01.mp4 **المدة:** 3.0 ث

```
[RELIGHT STUDIO — HALLWAY ENVIRONMENT TRANSFORM H10]
INPUT: S10 raw clip (9:16, 1080x1920, 5 s): an ordinary apartment hallway, a man walking slowly toward the camera from the far end, phone torch lighting from the camera position.
TASK: Transform the ordinary hallway into a tense, dark, narrow psychological-horror corridor while keeping the real footage. Do NOT regenerate the man.
PRESERVE EXACTLY: the man's face, hair, clothes, body shape, gait and timing; the hallway geometry, doors and walls; the camera position and framing.
CHANGE: switch off the ceiling light look; keep a single hard cold frontal light from the phone torch; deep black falloff beyond 3 metres; the far door a barely visible dark rectangle; slightly longer, darker perceived depth; faint damp-cool tone on walls; a long soft cast shadow of the man behind him.
SMALL DETAILS: remove bright objects and decorations on the walls; leave a single dark frame on the wall for visual rhythm.
LOOK: found-footage phone video at night, sensor noise, slight over-exposed face highlights from the torch, no cinematic haze or fog machine look.
NEGATIVE: no ghost, no extra people, no face change, no text, no flicker, no warped walls, no motion blur beyond what the real footage has.
OUTPUT: same duration, 1080x1920, 30 fps.
```

S11 الممر: يازد يعود — يازد

Relight Studio

الإدخال: TLR_S11_Y_P_t1_RAW_v01.mp4 **الإخراج:** TLR_S11_Y_P_AI_v01.mp4 **المدة:** 3.0 ث

```
[RELIGHT STUDIO — HALLWAY ENVIRONMENT TRANSFORM H11]
INPUT: S11 raw clip (9:16, 1080x1920): another apartment hallway, a different man walking slowly toward the camera, phone torch from the camera position.
TASK: Apply the SAME look as the processed S10 hallway (use S10 final frame as reference) to this different hallway. Do NOT regenerate the man.
PRESERVE EXACTLY: his face, hair, clothing, body shape, gait and timing; the real hallway geometry and doors; the camera framing.
CHANGE: ceiling light off; single hard cold frontal phone-torch light; black falloff beyond 3 metres; far door barely visible; cooler wall tone; long soft cast shadow behind him; remove bright decorations.
HOUSE DIFFERENCE: keep this home's real layout and proportions so the two hallways feel like two real places that share one mood.
LOOK: found-footage phone video at night, sensor noise, torch highlights on the face, no fog, no haze.
NEGATIVE: no extra people, no ghost, no face change, no text, no flicker, no warped geometry.
OUTPUT: same duration, 1080x1920, 30 fps.
```

S12 الانعكاس يلمس وجهه — خليل

Relight Studio

الإدخال: TLR_S12_K_E_COMP_v01.mov **الإخراج:** TLR_S12_K_E_AI_v01.mp4 **المدة:** 4.0 ث

```
[RELIGHT STUDIO — LOOK PASS L12]
INPUT: S12 composite (medium): real man standing motionless at left; his reflection at right raises a hand to its cheek.
TASK: Relight and re-atmosphere the EXISTING footage. Do NOT regenerate, redraw or re-pose the person.
SCENE: A man stands still; the mirror shows him touching his own cheek.
PRESERVE EXACTLY: the actor's identity, face, hair, clothing and body proportions; the real man's total stillness and the reflected hand-to-cheek gesture; fingers must stay natural; the mirror frame, furniture and camera framing; natural micro-shake.
CHANGE ONLY: lighting and atmosphere. Replace ordinary home lighting with one dim, cold practical source (single cold lamp from camera-left, low; slightly cooler glass region); gently deepen the shadows; soft light falloff toward the corners; skin stays natural and slightly desaturated.
MIRROR: Reflected hand and face keep the same light as the real face; no glow.
Do not alter fingers; do not blur the contact between hand and cheek.
LOOK: realistic phone footage shot at night, native sensor noise, soft highlights, no cinematic bloom, no lens flare, no HDR halo.
NEGATIVE: no face morphing, no new people or objects, no extra fingers, no warped mirror, no text or watermark, no flicker between frames, no beauty smoothing, no colour banding.
OUTPUT: same duration, 1080x1920, 30 fps, no re-timing.
```

S13 يازد: الإيماءة المعكوسة — يازد

Relight Studio

الإدخال: TLR_S13_Y_E_COMP_v01.mov **الإخراج:** TLR_S13_Y_E_AI_v01.mp4 **المدة:** 4.0 ث

```
[RELIGHT STUDIO — LOOK PASS L13]
INPUT: S13 composite (medium): real man standing motionless at right; his reflection at left raises its hand to its cheek.
TASK: Relight and re-atmosphere the EXISTING footage. Do NOT regenerate, redraw or re-pose the person.
SCENE: Mirror-image counterpart of S12 in a different home.
PRESERVE EXACTLY: the actor's identity, face, hair, clothing and body proportions; the real man's stillness, the reflected hand-to-cheek gesture, mirror-left layout; the mirror frame, furniture and camera framing; natural micro-shake.
CHANGE ONLY: lighting and atmosphere. Replace ordinary home lighting with one dim, cold practical source (single cold lamp from camera-right, low; match processed S12 for exposure and tone); gently deepen the shadows; soft light falloff toward the corners; skin stays natural and slightly desaturated.
MIRROR: Reflected light must match the real face; no glow.
MATCH TO REFERENCE: processed S12 frame.
LOOK: realistic phone footage shot at night, native sensor noise, soft highlights, no cinematic bloom, no lens flare, no HDR halo.
NEGATIVE: no face morphing, no new people or objects, no extra fingers, no warped mirror, no text or watermark, no flicker between frames, no beauty smoothing, no colour banding.
OUTPUT: same duration, 1080x1920, 30 fps, no re-timing.
```

S14 الظلّ خلف الانعكاس — خليل

تعديل صورة جزئي (Relight Studio أو أداة صور) ثم Remotion

الإدخال: TLR_S14_K_E_COMP_v01.mov **الإخراج:** TLR_S14_K_E_AI_v01.mp4 **المدة:** 4.5 ث

```
[IMAGE EDIT — SHADOW PLATE S14]  (use on ONE still frame, then composite as an overlay)
INPUT: a still frame exported from the composite of S14, cropped to the glass area of the mirror (plus 5% margin). It shows a bedroom reflected in a mirror and, in front, the reflection of a man standing still.
TASK: Add ONE faint, dark, standing human silhouette inside the REFLECTED room only — standing in the reflected doorway at the far left of the glass. It does not exist in the real room.
SIZE AND PLACEMENT: about 1.75 m tall relative to the reflected door frame; feet on the reflected floor line; fully clear of the reflection's body (no overlap, no occlusion).
APPEARANCE: no face, no hands detail, no eyes; just a slightly darker-than-shadow shape with soft edges, hunched very slightly, arms hanging. Matches the grain, blur and low contrast of the plate.
The silhouette sits in the dark reflected doorway; slight rim of cold light on one shoulder only.
PRESERVE EXACTLY: the man's reflection, the mirror frame, every other pixel of the plate.
NEGATIVE: no glowing eyes, no gore, no demon, no white ghost, no fog, no text, no extra objects, no change to the reflected face.
OUTPUT: PNG, same resolution as the input, plus a separate alpha/black-white mask of the silhouette only.
USAGE: in Remotion, overlay with opacity 0 → 0.85 over 12 frames at the scripted time, add 1 px grain, never animate the shape.
```

S15 يازد: الظلّ نفسه — يازد

تعديل صورة جزئي (Relight Studio أو أداة صور) ثم Remotion

الإدخال: TLR_S15_Y_E_COMP_v01.mov **الإخراج:** TLR_S15_Y_E_AI_v01.mp4 **المدة:** 4.5 ث

```
[IMAGE EDIT — SHADOW PLATE S15]  (use on ONE still frame, then composite as an overlay)
INPUT: a still frame exported from the composite of S15, cropped to the glass area of the mirror (plus 5% margin). It shows a bedroom reflected in a mirror and, in front, the reflection of a man standing still.
TASK: Add ONE faint, dark, standing human silhouette inside the REFLECTED room only — standing in the reflected doorway at the far right of the glass. It does not exist in the real room.
SIZE AND PLACEMENT: about 1.75 m tall relative to the reflected door frame; feet on the reflected floor line; fully clear of the reflection's body (no overlap, no occlusion).
APPEARANCE: no face, no hands detail, no eyes; just a slightly darker-than-shadow shape with soft edges, hunched very slightly, arms hanging. Matches the grain, blur and low contrast of the plate.
Use a slightly shorter silhouette than S14 so the two homes feel different, with the same softness and darkness.
PRESERVE EXACTLY: the man's reflection, the mirror frame, every other pixel of the plate.
NEGATIVE: no glowing eyes, no gore, no demon, no white ghost, no fog, no text, no extra objects, no change to the reflected face.
OUTPUT: PNG, same resolution as the input, plus a separate alpha/black-white mask of the silhouette only.
USAGE: in Remotion, overlay with opacity 0 → 0.85 over 12 frames at the scripted time, add 1 px grain, never animate the shape.
```

S16 الانعكاس يتراجع — خليل

Relight Studio

الإدخال: TLR_S16_K_E_COMP_v01.mov **الإخراج:** TLR_S16_K_E_AI_v01.mp4 **المدة:** 4.0 ث

```
[RELIGHT STUDIO — LOOK PASS L16]
INPUT: S16 composite (wide): real man in profile at left, motionless; his reflection in the mirror at right has stepped back and appears smaller and deeper in the glass.
TASK: Relight and re-atmosphere the EXISTING footage. Do NOT regenerate, redraw or re-pose the person.
SCENE: Wide shot, mirror at right; the reflection retreats into the mirror's depth while the man stays put.
PRESERVE EXACTLY: the actor's identity, face, hair, clothing and body proportions; the reflection's smaller scale and deeper position exactly as shot; the real man's stillness; the mirror frame, furniture and camera framing; natural micro-shake.
CHANGE ONLY: lighting and atmosphere. Replace ordinary home lighting with one dim, cold practical source (dim cold lamp from camera-left; add subtle depth haze ONLY inside the glass, stronger toward the reflection's feet); gently deepen the shadows; soft light falloff toward the corners; skin stays natural and slightly desaturated.
MIRROR: Do not resize or reposition the reflection; do not add a second figure.
Keep floor lines in the glass continuous with the real floor.
LOOK: realistic phone footage shot at night, native sensor noise, soft highlights, no cinematic bloom, no lens flare, no HDR halo.
NEGATIVE: no face morphing, no new people or objects, no extra fingers, no warped mirror, no text or watermark, no flicker between frames, no beauty smoothing, no colour banding.
OUTPUT: same duration, 1080x1920, 30 fps, no re-timing.
```

S17 يازد: التراجع — يازد

Relight Studio

الإدخال: TLR_S17_Y_E_COMP_v01.mov **الإخراج:** TLR_S17_Y_E_AI_v01.mp4 **المدة:** 4.0 ث

```
[RELIGHT STUDIO — LOOK PASS L17]
INPUT: S17 composite (wide): real man in profile at right, motionless; his reflection in the mirror at left stepped back and looks smaller and deeper.
TASK: Relight and re-atmosphere the EXISTING footage. Do NOT regenerate, redraw or re-pose the person.
SCENE: Counterpart of S16 in a second home, mirror at left.
PRESERVE EXACTLY: the actor's identity, face, hair, clothing and body proportions; the reflection's smaller scale and deeper position as shot; the real man's stillness; the mirror frame, furniture and camera framing; natural micro-shake.
CHANGE ONLY: lighting and atmosphere. Replace ordinary home lighting with one dim, cold practical source (dim cold lamp from camera-right; match processed S16); gently deepen the shadows; soft light falloff toward the corners; skin stays natural and slightly desaturated.
MIRROR: No re-scaling of the reflection; depth haze only inside the glass.
MATCH TO REFERENCE: processed S16 frame.
LOOK: realistic phone footage shot at night, native sensor noise, soft highlights, no cinematic bloom, no lens flare, no HDR halo.
NEGATIVE: no face morphing, no new people or objects, no extra fingers, no warped mirror, no text or watermark, no flicker between frames, no beauty smoothing, no colour banding.
OUTPUT: same duration, 1080x1920, 30 fps, no re-timing.
```

S18 الصمت — كلاهما (مونتاج/صوت)

محرر/Remotion + صوت (بلا ذكاء اصطناعي)

الإدخال: – **الإخراج:** – **المدة:** 0.8 ث

```
NO AI PROMPT FOR THIS SHOT.
EDIT SPEC: black solid 24 frames at 30 fps; audio: total silence for 15 frames, then room tone fades in from -60 dBFS to -48 dBFS over the last 9 frames; remove any music tail at the cut.
```

Relight Studio

الإدخال: TLR_S19_K_E_COMP_v01.mov **الإخراج:** TLR_S19_K_E_AI_v01.mp4 **المدة:** 4.5 ث

```
[RELIGHT STUDIO — LOOK PASS L19]
INPUT: S19 composite (wide): a man walks out of frame at left leaving an empty room; his reflection stays standing in the mirror at right.
TASK: Relight and re-atmosphere the EXISTING footage. Do NOT regenerate, redraw or re-pose the person.
SCENE: An empty bedroom with a wall mirror; the mirror still shows a standing man who is no longer in the room.
PRESERVE EXACTLY: the actor's identity, face, hair, clothing and body proportions; the empty room as shot, and the standing reflection's pose and stillness; the mirror frame, furniture and camera framing; natural micro-shake.
CHANGE ONLY: lighting and atmosphere. Replace ordinary home lighting with one dim, cold practical source (dim cold lamp from camera-left; keep the room's emptiness readable); gently deepen the shadows; soft light falloff toward the corners; skin stays natural and slightly desaturated.
MIRROR: The reflection must stay visible and consistent in brightness with the former real man; it must not glow or brighten after he leaves.
Do not add any new object or person to the room.
LOOK: realistic phone footage shot at night, native sensor noise, soft highlights, no cinematic bloom, no lens flare, no HDR halo.
NEGATIVE: no face morphing, no new people or objects, no extra fingers, no warped mirror, no text or watermark, no flicker between frames, no beauty smoothing, no colour banding.
OUTPUT: same duration, 1080x1920, 30 fps, no re-timing.
```

S20 يازد يخرج — يازد

[RELIGHT STUDIO — LOOK PASS L20]
INPUT: S20 composite (wide): a man walks out of frame at right leaving an empty room; his reflection stays standing in the mirror at left.
TASK: Relight and re-atmosphere the EXISTING footage. Do NOT regenerate, redraw or re-pose the person.
SCENE: Second home: empty bedroom, mirror still holds a standing man who has left.
PRESERVE EXACTLY: the actor's identity, face, hair, clothing and body proportions; the empty room and the standing reflection's pose and stillness; the mirror frame, furniture and camera framing; natural micro-shake.
CHANGE ONLY: lighting and atmosphere. Replace ordinary home lighting with one dim, cold practical source (dim cold lamp from camera-right; match processed S19); gently deepen the shadows; soft light falloff toward the corners; skin stays natural and slightly desaturated.
MIRROR: No brightening or glow on the reflection after the man leaves.
MATCH TO REFERENCE: processed S19 frame.
LOOK: realistic phone footage shot at night, native sensor noise, soft highlights, no cinematic bloom, no lens flare, no HDR halo.
NEGATIVE: no face morphing, no new people or objects, no extra fingers, no warped mirror, no text or watermark, no flicker between frames, no beauty smoothing, no colour banding.
OUTPUT: same duration, 1080x1920, 30 fps, no re-timing.

S21 الانعكاسان وجهًا لوجه — كلاهما (مونتاج/صوت)

Remotion (بلا ذكاء اصطناعي)

الإدخال: – **الإخراج:** – **المدة:** 6.0 ث

```
NO AI PROMPT FOR THIS SHOT.
REMOTION SPEC (S21):
- Composition: 1080x1920, 30 fps, 180 frames (6.0 s).
- Top half: <OffthreadVideo src="K_S19_TakeB.mp4" startFrom={135}/> cropped to 1080x960 around the reflection's face (scale 1.35, objectPosition 'center 28%').
- Bottom half: <OffthreadVideo src="Y_S20_TakeB.mp4" startFrom={135}/> cropped the same way.
- Divider: 2 px red line at y=960, opacity 0.7.
- Sync: both reflections must hit the 'look at lens' pose at frame 111 (3.7 s) of the composition; offset a clip by whole frames only.
- Grade: LOOK-R on both halves; drop the glass region -0.2 EV for 10 frames when the stare lands.
- Audio: room tone only (-50 dBFS) + distant murmur (-54 dBFS) fading out over frames 150-180.
```

S22 الأسود والحوار والطرقة — كلاهما (مونتاج/صوت)

محرر/Remotion + صوت (بلا ذكاء اصطناعي)

الإدخال: – **الإخراج:** – **المدة:** 9.5 ث

```
NO VIDEO AI PROMPT FOR THIS SHOT. (ELEVENLABS SFX — OPTIONAL)
KNOCK: "A single dry knuckle knock on a solid wooden door, very close, slightly behind the listener, no reverb, no echo, 0.35 seconds, clean attack, nothing before or after."
ROOM TONE: "Quiet bedroom at night, faint refrigerator hum from another room, very low, no music, 12 seconds, seamless loop."
AUDIO TIMELINE (s from start of S22): 0.0-0.6 black + silence | 0.6-2.9 Khalil line | 2.9-3.6 silence | 3.6-6.1 Yazed line (slightly wet, 7 kHz low-pass) | 6.1-8.2 silence | 8.2 KNOCK (peak -3 dBFS) | 8.2-9.5 dead silence + black.

العنصر	Prompt
قاع الغرفة	Quiet bedroom at night, faint refrigerator hum from another room, very low air movement, no music, 20 seconds, seamless loop.
الطنين الكهربائي	Very faint electrical mains hum at 50 Hz with a few quiet harmonics, like an old lamp or transformer, constant, no melody, 15 seconds.
نقرة الزجاج	A single soft glass tick, like a fingernail tapping a mirror once, very close, dry, no reverb, 0.2 seconds.
صرير الإصبع على الزجاج	A fingertip slowly pressing and sliding on a mirror surface, soft squeak, close, 1 second, no background.
احتكاك قماش	Slow subtle cloth rustle of a sleeve moving across a shirt, close microphone, 1 second, no background.
قاعدة منخفضة	Deep sub drone around 55 Hz, slowly rising in intensity, no melody, no rhythm, dark and steady, 30 seconds.
همس بعيد	Faint indistinct murmuring voices behind a wall, unintelligible, no words, very low volume, 10 seconds.
خطوة مكتومة	A single muffled bare footstep on a hard floor, slightly inside a glass box, 0.4 seconds.
الطرقة الأخيرة	A single dry knuckle knock on a solid wooden door, very close and slightly behind the listener, no reverb, no echo, 0.35 seconds, clean attack.
