PROFILE

Brand architect and creative strategist based in Syria, working with Arab-market and international clients. I develop distinct visual identities, kinetic motion systems, and AI-driven 30-day content and growth engines that combine audience psychology with rapid execution.

EXPERIENCE

Brand Designer & AI Growth Strategist 2021 - Present
Freelance, remote
- Architected end-to-end brand identities, logos, and design systems for Arab and Gulf-market businesses.
- Engineered 30-day AI-driven content engines: mining competitor friction, defining visual directions, and drafting bilingual copy.
- Produced kinetic motion graphics, packaging, and digital campaign assets using modern compositing tools.
- Delivered strategic brand collateral and social media visual guidelines across Instagram, Facebook, and TikTok.

Content Strategy & Digital Mentorship Ongoing
Independent, remote
- Mentored and guided 100+ learners across visual design, branding hierarchy, copywriting, and AI-assisted production workflows.
- Authored structured design roadmaps and practical curriculum blueprints for digital creators.
